UNIVERSITY HONORS PROGRAM

All University Colleges

- **Director:** Jeffrey L. Wilson, Ph.D.
- **Assistant Director:** Alex Esposito, Ph.D.
- **Senior Administrative Coordinator:** Nubia Valenzuela

**Objectives**

The University Honors Program is a community of scholars dedicated to the delight of intellectual inquiry, and to the joy of reflecting on great ideas, accomplishing creative projects, and pushing the boundaries of human knowledge. An Honors education is not merely about what students learn—it is about cultivating passion for learning, for developing innate strengths, and for seeing things in new ways. We foster in our students the ability and desire to address problems of the 21st century using collaborative, multidisciplinary, interdisciplinary, and multicultural approaches. LMU's Honors Program offers a unique, exceptional undergraduate education that prepares our students for an intellectual and meaningful life after graduation.

The University Honors Program focuses and fuels the intellectual curiosity and potential of our community to empower passionate leaders who are uniquely equipped to reimagine and reshape our world.

**Application Process**

Most students in the University Honors Program apply in the year before entering LMU for admission as a first-year student. Upon completing their LMU application, all LMU applicants receive an email inviting them to apply to the Honors Program. Application deadlines vary by year and applicants are encouraged to pay close attention to dates and details in the invitation letter and application materials.

Limited spots in the Honors Program may become available for internal (current LMU student) and external transfer applicants, depending on current Program size and resources. If transfer applicants are being considered, application information will be posted on the Program website (https://academics.lmu.edu/honors/prospective/applicationprocess/).

Applications are reviewed holistically, considering student preparation, background, academic record, extracurricular interests, fit with the Program's goals, and with an explicit aim to recognize and maximize the ethnic, racial, and experiential diversity of the student body.

**Program Requirements**

**Second Language Proficiency**

Prior to graduation, University Honors students must demonstrate proficiency in a second language. This requirement is met through coursework at the intermediate level of a second language (e.g., completion of 2102-level courses in the Modern Languages, or their equivalent as determined by the Office of the Registrar), placement into 2103 (or higher) level language courses as determined by the Office of the Registrar, or by alternative examination approved by the Program Director. International students fulfill this requirement by TOEFL proficiency in English as a Second Language.

**Core Curriculum**

Students in the University Honors Program take the Honors Core in place of the University Core. Except where noted, Honors students must enroll in the specific HNRS courses listed below rather than the regular University Core.

Because of the impacted and sequenced nature of degrees in Seaver College of Science and Engineering (SCSE), The Honors Core curriculum requirements differ for students with at least one major or degree in SCSE. Specifically, for SCSE students, the Honors Program waives the ECRE and EHBV core requirements and considers the Nature of Science, Technology, and Mathematics requirement fulfilled by the major (as noted below).

1 Except where noted by this footnote, Honors students must enroll in the specific HNRS courses listed rather than the regular University Core.
2 (or thesis/capstone project developed through a capstone course in the major). Note that a capstone course in the major will not satisfy the thesis requirement unless it culminates in a thesis or project. Students fulfilling the thesis requirement through a course in the major must obtain prior approval from the Honors Director or Associate Director.

**Honors Colloquium Series and Honors Thesis**

Honors students are not just expected to learn from the discoveries and creations of past thinkers; they must also step beyond the edge of human knowledge and artistic understanding to create and share novel ideas. The ability to do this is developed through the four-year Honors colloquium series. In HNRS 1000 Honors Colloquium: Introduction
to Honors, students develop their sense of purpose in life and how
to share their LMU and Honors experience in service of the common
good. In HNRS 2000 Honors Colloquium: Research and Exhibition,
students are introduced to the foundations of research and creative
core classes for which AP credit might "count." Therefore, within the Honors
program, our view is that AP classes prepare high school students for, but
are not considered substitutes for, college-level coursework. There are two
specific exceptions:

- Because Honors does not offer language classes, AP credits may be
  used to demonstrate second language proficiency through course
  equivalencies as determined by the Registrar.
- Because Honors does not offer Honors-specific versions of EHBV and
  ECRE, AP credits may be used fulfills core requirements for EHBV and
  ECRE through LMU core course equivalencies as determined by the
  Registrar.

Otherwise, AP credits will not fulfill Honors core requirements.

The Honors Examen
The Honors examen is a way to reflect on one's own membership in the
community that is the Honors Program. Specifically, at the end of each
academic year (or semester; see below), every member of the Honors
community will be asked to engage in, write, and submit a structured
reflection of their past, present, and future involvement with Honors. For
most students, most of the time, this will be entirely self-directed and it
won't be arduous (a couple pages at most). The Honors Leadership
team will ensure that students have submitted an examen, and will be
happy to read and provide feedback, guidance, or anything they need, if
they ask. It's a process of self-revision-assessing our past actions, our
vision for ourselves, and our future. Ideally, it helps each person assess
what Honors has meant for them, where they now stand in relation to the
program, whether they want to continue in Honors, and what that future
participation will look like.

Under Revision
However, if students show signs that they are either struggling to
maintain or are uninterested in maintaining their participation in
Honors, this process will become more hands-on. Such students will
be considered under revision with Honors, at which time two things
will change. First, students under review will be asked to engage in an
Honors examen semi-annually (at the end of each semester) rather than
annually. Second, members of the Leadership Team will carefully read
the student’s examen, provide thoughtful feedback, and create an "academic
improvement plan" that details the nature of and timeline for changes
the student needs to make to return to good standing. If the student fails
to make the specified adjustments in the time allotted (or amended in
subsequent examens), the student will be counseled out of Honors.

The determination of revisionary status derives from our internal
community expectations. Our community maintains expectations
that its members will be actively involved, will avail themselves of
opportunities to uncover new knowledge and produce creative works, and
will consistently perform superior academic work. Thus, the indicators for
probationary status will be based on a combination of Passport Points,
engagement in Honors opportunities (such as research, creative work,
and exhibition), and academic excellence. In short, if students don't make
progress in the Honors curriculum, don’t actively engage in Passport
Events (extracurricular academic events hosted or promoted by the
University Honors Program), don't consistently demonstrate “superior”
academic work (see the LMU Bulletin for more on the University grading
system), or don’t demonstrate avail themselves of opportunities for
research and intellectually creative work, they will be placed under
revision. In cooperation with SHAC E-Board, the indicators for revisionary
status will be continually evaluated and revised as our community
evolves.

Leaving the Honors Program
In cases where, by a student’s own discernment, or through determination
by Honors Leadership as described above, it becomes clear that a
student is no longer contributing to or being served by the Honors
community, the student will be counseled out of Honors. Honors advisors
will work with the student and the student’s departmental advisors to
determine which Honors core classes will count as general LMU core
classes. Typically, this is close to a one-to-one mapping, so very little
is “lost” in the transition out of Honors. Individual circumstances will
be handled with cooperation between Honors advising, departmental
advisors, and the Registrar.

AP and IB Equivalencies
Honors core classes are substantially different from regular college core
classes for which AP credit might "count." Therefore, within the Honors
program, our view is that AP classes prepare high school students for, but
are not considered substitutes for, college-level coursework. There are two
specific exceptions:

- Because Honors does not offer language classes, AP credits may be
  used to demonstrate second language proficiency through course
  equivalencies as determined by the Registrar.
- Because Honors does not offer Honors-specific versions of EHBV and
  ECRE, AP credits may be used fulfills core requirements for EHBV and
  ECRE through LMU core course equivalencies as determined by the
  Registrar.

Otherwise, AP credits will not fulfill Honors core requirements.

Education and Learning Sciences Students
Students who are working toward elementary and secondary education
credentials need to meet with the Honors Director to determine the best
coursework path. Decisions about courses will be made in consultation
with the Center for Undergraduate Teacher Preparation.

Additional Notes
The University Honors Program does not require courses in Rhetorical
Arts, Quantitative Reasoning, or Interdisciplinary Connections.

Maintaining Good Standing
Membership in the University Honors Program offers many unique
opportunities and rewards; it also carries unique responsibilities and
expectations. Maintaining the community that makes Honors
worthwhile requires an understanding of our shared prosperity and
active contribution to our common mission. Our community is diverse
in background, interests, perspective, and goals. Yet, we are bonded by
common values of insatiable curiosity, the intrinsic love of learning, the
search for and creation of knowledge, the pursuit of excellence, and
the desire to solve meaningful problems.

Simultaneously, participation in Honors and its pursuits necessarily
means the sacrifice of other competing uses of our time and energy.
Life, and particularly University life, offers a dazzling array of options
for how to spend our time. We cannot meaningfully engage in all things;
we must therefore be thoughtful, intentional, and reflective about our
choices under these conditions. Thus, we must regularly discern how we
are using our time and opportunities and whether we are both fulfilling
our obligations and being fulfilled by our membership in our communities.
Courses

HNRS 1000 Honors Colloquium: Introduction to Honors (1 semester hour)
An orientation to the pursuit of academic excellence at LMU and to the opportunities and expectations students will encounter in the University Honors Program.

HNRS 1100 Honors Philosophical Inquiry (3,4 semester hours)
An introduction to the various modes of philosophical inquiry and to the great philosophical questions that are central to a humanistic education in the Catholic intellectual tradition, taught in small, seminar-style course sections.

HNRS 1110 On Human Dignity (3,4 semester hours)
An examination of what it means to be human as reflected in and fashioned by significant philosophical works, both classical and contemporary.

HNRS 1200 Honors Theological Inquiry (3,4 semester hours)
A historical, literary, and social exploration of theological images of creation and the divine.

HNRS 1998 Special Studies (1-4 semester hours)
HNRS 1999 Independent Studies (1-4 semester hours)

HNRS 2000 Honors Colloquium: Research and Exhibition (1 semester hour)
An orientation to the practice of research (and creative activity), including the formulation by the student of a problem worthy of in-depth study and the public exhibition of the student’s work.

HNRS 2100 Honors Historical Analysis and Perspectives (3,4 semester hours)
An exploration of both the unfamiliar past and the processes by which the world of the present was created, taught in smaller, seminar-style course sections.

HNRS 2200 Honors Nature of Science, Technology, and Mathematics (3,4 semester hours)
An exploration of the methods of inquiry used in science, engineering, and/or mathematics, taught in smaller, seminar-style course sections.

HNRS 2998 Special Studies (1-4 semester hours)
HNRS 2999 Independent Studies (1-4 semester hours)

HNRS 3000 Honors Colloquium: The Edge of What We Know (1 semester hour)
A colloquium built that seeks to bring to life the research process from prior colloquia through a series of curated public talks by LMU faculty. This course prepares students to engage in original research and creative work in the Honors Thesis.

HNRS 3001 Honors Colloquium: ONIF Fellowship Practicum (1 semester hour)
An alternative pathway for the junior-level Honors colloquium for students interested in pursuing a funded fellowship through the Office of National and International Fellowships (ONIF). Honors students in their first or second year may petition to work with ONIF to submit a funded fellowship application. Upon completion of the ONIF practicum and submission of the fellowship application, students are awarded credit for the course, which also fulfills the HNRS 3000 requirement.

HNRS 3200 Honors Literary Analysis (4 semester hours)
An exploration of the study of multiple literary forms such as poetry, plays, fiction, literary non-fiction, and films, introducing students to the formal and technical features of literary texts as well as their connections to historical, social, philosophical, theological, and scientific issues, taught in smaller, seminar-style course sections.

HNRS 3998 Special Studies (1-4 semester hours)
HNRS 3999 Independent Studies (1-4 semester hours)

HNRS 4000 Honors Colloquium: Portfolio (0 semester hours)
Completion of a portfolio demonstrating satisfactory fulfillment of the requirements for University Honors, including the submission of the final Honors undergraduate thesis or capstone project and documented attempt at disseminating this work at the Undergraduate Research Symposium or an external disciplinary conference.

HNRS 4100 Honors Thesis (3-4 semester hours)
The preparation, research, and publication of the Honors Thesis. Required of any Honors student not pursuing a thesis/capstone/senior project in their major.

HNRS 4200 Honors Beyond Good and Evil (Ethics and Justice) (4 semester hours)
An exploration of moral problems through the study of ethics, considering select issues in social justice, science and technology, business and society, medicine and bioethics, or media and responsibility.

HNRS 4998 Special Studies (1-4 semester hours)
HNRS 4999 Independent Studies (0-4 semester hours)

HNRS 5000 Honors Thesis (3,4 semester hours)
The preparation, research, and publication of the Honors Thesis. Required of any Honors student not pursuing a thesis/capstone/senior project in their major.
