

# PSYCHOLOGY MINOR

---

## Minor Requirements

LMU students who wish to declare a Psychology minor must have completed PSYC 1000 General Psychology (with a minimum grade of C) and must have a cumulative GPA of 3.0.

A minimum grade of C (2.0) is required in all courses for the minor. Students must repeat any minor course in which a grade below C (2.0) is earned.

Students may not register for any Psychology course for a third time without the written permission of the Department Chairperson and the Dean of the Bellarmine College of Liberal Arts.

| Code                               | Title                              | Semester Hours |
|------------------------------------|------------------------------------|----------------|
| <b>Lower Division Requirements</b> |                                    |                |
| PSYC 1000                          | General Psychology                 | 4              |
| PSYC 2001                          | Statistical Methods for Psychology | 4              |
| PSYC 2002                          | Research Methods                   | 4              |
| <b>Subtotal</b>                    |                                    | 12             |
| <b>Upper Division Electives</b>    |                                    |                |
| PSYC 3xxx or 4xxx                  | Upper Division Elective            | 4              |
| PSYC 3xxx or 4xxx                  | Upper Division Elective            | 4              |
| PSYC 3xxx or 4xxx                  | Upper Division Elective            | 4              |
| <b>Subtotal</b>                    |                                    | 12             |
| <b>Total Semester Hours</b>        |                                    | <b>24</b>      |

**Note:**Electives are selected in consultation with the Department Advisor for the Minors (the Associate Chair). PSYC 4000-level electives require completion of all lower division major requirements with a minimum grade of C (2.0) in each: PSYC 1000 General Psychology, PSYC 2001 Statistical Methods for Psychology, PSYC 2002 Research Methods, and PSYC 2003 Brain and Behavior.
